SCHOOLS AUCTION IDOL

INTRODUCING REAL ESTATE AND AUCTIONEERING TO SCHOOL STUDENTS AS A POSSIBLE CAREER CHOICE

The module was developed In consultation with **Catholic Education, Education SA** and **TAFE** we developed the format and workbooks so that students who participate **receive credits towards their SACE certificate**.

The Schools Auction Idol competition is held in May each year.

Heats are conducted in the various participating schools under the guidance of an experienced Auctioneer who is a **Society of Auctioneers and Appraisers (SA) Inc.** Member.

WHO RUNS THE SCHOOLS INTERNAL HEATS?

The practical aspects of conducting an auction will be taught by the mentor to the students in the classroom under the guidance of the Teacher.

The mentor is there as a point of contact to assist and monitor the progress when required and to ensure the students gain enough experience to perform in a competition scenario.

In some instances only a small group (1-5) students may be interested in competing but the preferred option is to encourage a full class to get involved.

Feedback from Educators is that this competition may suit **Legal and Business Studies, Debating, Humanities and Drama students**.

WHAT PROPERTY DO THEY AUCTION?

A property of their choice, however we suggest it is the property researched during the Training.

The price range for the heats irrespective of the actual vale of the property shall be \$250,000 - \$300,000 so it creates a level playing field for all students.

The finals property shall be a slightly higher price range.

PERFORMANCE

The object is to judge the students on their individual auctioneering style and performance.

The competition is as much about "accepted" auction delivery as it is about the **students bringing their own individual flair and technique** to the stage.

WORKBOOK

A detailed step-by-step Workbook is available on the **Society of Auctioneers & Appraisers website** and explains the structure and conditions of sale the student will need to refer to.

It also summarises the suggested times for each segment of the Auction and includes a scoring sheet.
